EDUCATION:

B.Tech in Computer Science Engineering:
ITM Skills University, Kharghar (2023-2027)
CGPA: 9.08/10 (Till Semester 6)

Higher Secondary Certificate (HSC):
Vidya Mandir College, Bangalore, (2021-2023)
Percentage: 96%

SSLC :
Cluny Convent High School, Bangalore, (2010-2021)
Percentage: 97%

TECHNICAL SKILLS:

- **Frontend Development:** HTML, CSS, JavaScript, React.js
- **Backend Development:** Python, SQL, MongoDB, Node.js, Express.js
- **Full-Stack Development:** MERN Stack
- **Cloud Platforms:** Amazon Web Services (AWS)
- **UI/UX:** Figma
- **Machine Learning & Feature Engineering**
- **Tools and Technologies:** Git, GitHub, Postman

SOFT SKILLS:

- Public Speaking & Presentation Skills
- Team Collaboration & Leadership
- Critical Thinking & Problem Solving
- Adaptability & Fast Learning

Certifications:

- AWS Cloud Practitioner Essentials – Amazon Web Services (2025)
- AWS Technical Essentials – Amazon Web Services (2025)

Languages:

- English: Proficient
- Hindi & Kannada: Conversational
- Malayalam: Native

Other Interests:

- Baking & Painting
- Travel & Exploration
- Fashion & Visual Aesthetics

PROFESSIONAL SUMMARY:

Computer Science Engineering student with experience in AI/ML research and exposure to aerospace software development. Skilled in modern web technologies, backend systems, RESTful APIs and data-driven solutions. Strong problem-solving and analytical abilities with a growing interest in AI-driven innovation.

TECHNICAL INTERNSHIP:

Software Intern – MCSRDC, Hindustan Aeronautics Limited (HAL), Bangalore

Oct 2025 – Dec 2025

- Conceived the software architecture and explored modules on a Windows-based flight-worthy computer using WPF .NET platform.
- Gained exposure to real-time software systems, Agile development frameworks, CI/CD practices and improved data reliability through efficient sensor communication and system-level integration from testing to validation.

AI/ML Research Associate Intern – Inventuriz Labs Pvt. Ltd., Bangalore

Jul 2025 – Sep 2025

- Built and optimised deep learning models for stock prediction and brain tumour detection with 97% accuracy.
- Performed data preprocessing, model training, and performance evaluation with Python and TensorFlow, achieving robust model performance.
- Collaborated on research documentation and result interpretation for project development readiness.

Data Management Intern – LetsUpgrade, Mumbai

Dec 2024 - Dec 2024

- Improved data accuracy by 30% for a class-12 academic portal through backend restructuring.
- Reduced redundancy and improved data flow efficiency with optimised data architecture.

SOCIAL INTERNSHIP:

Volunteer – Bhumi NGO

Jan 2026 - Jul 2026

- Trained 80+ students in Machine Learning fundamentals, boosting digital literacy and problem-solving skills.
- Designed and facilitated interactive online sessions to improve engagement, problem-solving abilities, and learning outcomes.

Volunteer – Amma NGO

Jul 2025 - Dec 2025

- Mentored 18 young girls through academic support, guidance, and engaging activities.
- Created a supportive environment that encouraged their personal growth, confidence, and overall development.

PROJECTS:

Brain Tumour Detection using Deep Learning (Python, TensorFlow, CNN, OpenCV)

- Developed a Convolutional Neural Network (CNN) model to classify MRI images into tumour and non-tumour categories with 97% accuracy.
- Performed image preprocessing, augmentation, and model tuning to improve precision and reduce false positives.

Down Under Connect (MERN Stack, PHP, JavaScript, Git)

- Engineered a full-stack travel platform for exploring Australian destinations, curated travel packages, itineraries, ratings, and travel experiences, generating 300+ user interactions and driving a projected 25% increase in booking conversions.
- Constructed a modern, responsive, SEO-optimised user interface using React.js, with interactive components, smooth animations, and intuitive navigation to enhance the travel-planning experience.
- <https://downunderconnect.com.au/>.

MICEkart (MERN stack, PHP)

- Launched a fully responsive, mobile-friendly design, projecting a 32% increase in event registrations and a 24% reduction in user drop-off across devices.
- Implemented SEO optimisation techniques increasing organic search visibility, and driving higher website discoverability.
- <https://www.micekart.com>.
